

ART & CONVIVIALITY

Fondazione Pistoletto Cittadellarte launches **ART & CONVIVIALITY – Cittadellarte Award for Students**, an open call inviting students to design and realize two mural interventions within the spaces of Cittadellarte.

The project invites participants to reflect on the theme of **conviviality**, understood as a space of encounter, dialogue and shared experience between people, cultures and communities. Through this call, students are invited to propose an artistic intervention for **two wall niches located below the windows along the hall**, transforming them into visual works capable of expressing an idea of conviviality.

WHO CAN PARTICIPATE

The call is open to **all students and former students of Accademia Unidee**. Collectives are also welcome.

GUIDELINES

Participants may submit a proposal for a permanent intervention on the walls indicated below, part of the Caffeteria hall.

The proposal can be bi- or tridimensional, and any medium is allowed.

Every proposal can be

- **single: for one only wall**
- **double: integrating both walls into one only project**

Dimensions:

- **Left wall (Lavagna sx) and maximum length and width**
130 cm × 257 cm
- **Right wall (Lavagna dx) and maximum length and width**
127cm × 253 cm

Maximum depth for both the surfaces: 30 cm
